Ordo Sacer Antiquus LVII

OFFICIAL PROCLAMATION

On Setting Orange of Bureaucracy 36th in the Year of our Lady of Discord 3167, the NATO secretary general invoked Article V of the North Atlantic Treaty and in doing so cemented the creation of a Novus Ordo Seclorum. As this new world struggles to be born We breach new vistas of the spectacular. The last five years have just been so mind-blowingly perverse that very few people have escaped. It's as if an occult hand had replaced our mutual reality with Hyperreality, as the world becomes more surreal and cruel at every bend. It is our duty now for the future to find the others, to create bonds through the chaos to survive the hodge and podge of the order/disorder dialectic. Someday we might devour the Eloï but not until after they devour us, or vice-versa, like a great ouroboros. We haven't devolved that far yet! Today is not that day and neither is tomorrow! The time to find the others is now! If you believe you have genius, or if you think you have only a brilliant intelligence, write the P.O.E.E. today. Come join us if you really wanna have some fun. (Werewolves welcome; Safety not guaranteed.)
